This system of composition for medicines has been found in the Cherry Poetural and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. All the inert and obmaxious qualities are business as a constitution to the contraint of the curative offect is present. All the inert and obmaxious qualities, the foot of the curative of the curative of the curative of the contraints of the curative of the cura office is present. All the inert and obmaxions qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer more powerful antidote to discuse than any other medicine known to the world.
